THE NEXT-LEVEL PARASITE PROTECTION WE RECOMMEND.

Ask us about One-And-Done monthly parasite protection dogs prefer!^{1,2}

* NexGard SPECTRA® is approved by the European Medicine Agency (EMA) for use in puppy weighing 1.35 kg and above and is currently in the process of obtaining local claims.

NexGard SPECTRA® aids in preventing flea tapeworm (*Dipylidium caninum*), it is not intended as a treatment for existing infestations.

¥ NexGard SPECTRA® is approved by the European Medicine Agency (EMA) for treatment of ear mite infestations (caused by *Otodectes cynotis*) and is currently in the process of obtaining local claims.

Recommending an endectocide like NexGard SPECTRA® provides comprehensive protection for dogs from internal and external parasites, and reduces zoonotic risk for families

† All claims are based on the product insert obtained from the NPRA website as of the date this material was prepared. For any new claims, please refer to the latest product insert for the respective product.

‡ In one comparison study, NexGard SPECTRA® overall preference rate is 94.7% compared to brand C.
